### NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 SEPTEMBER 2024

(Amounts expressed in TRY based on the 30 September 2024 purchasing power of Turkish Lira (“TRY”) unless otherwise indicated.)

#### NOTE 2 - BASIS OF PRESENTATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

##### 2.1 Basis of presentation

The interim condensed consolidated financial statements have been prepared in accordance with the provisions of the Capital Markets Board (“CMB”), Serial II, No. 14.1 “Communiqué on the Principles of Financial Reporting in the Capital Markets” (“Communiqué”) published in the Official Gazette dated 13 June 2013 and numbered 28676. and Turkish Accounting Standards and their annexes and comments (“TFRS”), which were put into effect by the Public Oversight Accounting and Auditing Standards Authority (“KGK”), pursuant to Article 5 of the Communiqué. TFRS is updated with communiqués published to comply with amendments made in the International Financial Reporting Standards. It covers TFRS and appendices and interpretations thereof. The interim condensed consolidated financial statements have been presented in accordance with the formats determined in the “Announcement on TMS Taxonomy” published by POA on October 4, 2022, and the Financial Statement Examples and User Guide published by the CMB.

The condensed consolidated financial statements are prepared on the historical cost basis, except for derivative financial instruments measured at fair value. In determining the historical cost, the fair value of the amount paid for the assets is generally taken as the basis.

The Company prepared the condensed consolidated financial statements for the interim fiscal period ending on 30 September 2024 in accordance with the CMB's communiqués with Serial: II, No. 14.1 and announcements made to clarify this communiqué and based on the principle of going concern according to TAS 34 “Interim Period Financial Reporting” standard. Condensed consolidated financial statements for the interim period and notes thereof are presented in the formats recommended by the CMB and by including all mandatory information.

In accordance with TAS 34 standard, entities are free to prepare the interim period consolidated financial statements either as a whole set or summarized versions. In line with this the Group chose to prepare condensed consolidated financial statements for interim periods.

Condensed consolidated financial statements of the Group include all explanations and notes required to be included in the year-end consolidated financial statements. Therefore the statements for the interim period must be read together with the consolidated financial statements dated 31 December 2023.

##### *Functional and reporting currency*

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates (“the functional currency”). The financial statements are presented in TRY, which is the Company’s functional and presentation currency.

Condensed consolidated financial statements include the financial statements of the Company and its subsidiaries. Control is provided by the Company's fulfillment of the following conditions:

- Having power over the invested group;
- Being open to or entitled to variable returns to be obtained by the investee group;
- Ability to use power to have an impact on returns.

In the event that a situation or event arises that may cause any change in at least one of the criteria listed above, the Group re-evaluates whether it has control over its investment.

**NOTE 2 - BASIS OF PRESENTATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**2.1 Basis of presentation (Continued)**

In cases where the company does not have majority voting rights on the investee company, it has control power over the investee company, provided that it has sufficient voting rights to direct/manage the activities of the relevant investment. The Group considers all relevant events and circumstances in assessing whether the majority of the votes in the relevant investment is sufficient to exercise control, including the following:

- Comparison of the voting rights of the Group with the voting rights of other shareholders;
- Potential voting rights held by the Group and other shareholders;
- Rights arising from other contractual agreements; and
- Other events and conditions that may indicate whether the Group has the current power to manage the relevant activities (including voting at previous general assembly meetings) in cases where a decision is required.

Consolidation of a subsidiary begins when the Group has control over the subsidiary and ends when it loses control. Income and expenses of subsidiaries acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date of acquisition to the date of disposal.

Each item of profit or loss and other comprehensive income belongs to the parent shareholders and non-controlling interests. Even if the non-controlling interests result in a reverse balance, the total comprehensive income of the subsidiaries is transferred to the parent shareholders and non-controlling interests.

All intragroup assets and liabilities, equity, income and expenses, and cash flows from transactions between Group companies are eliminated on consolidation.

**2.2 Changes in accounting policies**

The accounting policies used in the preparation of the consolidated financial statements for the accounting period 1 January - 31 September 2024 have been applied in a consistent manner with the consolidated financial statements prepared as of 31 December 2023.

**2.3 Changes in accounting estimates and errors**

Changes in accounting estimates are applied prospectively in the current period if the change is made, if it relates to only one period, and in both the period in which the change is made and in future periods if it relates to future periods. There has been no significant change in the accounting estimates of the Group in the current year.

**2.4 Summary of significant accounting policies**

Condensed consolidated financial statements for the interim period ending on 30 September 2024 are prepared in accordance with the TAS 34 standard regarding preparation of interim period financial statements. Significant accounting policies applied when preparing interim period condensed consolidated financial statements are consistent with those applied for the annual consolidated financial statements for the fiscal period 1 January-31 December 2023. Interim period summarized consolidated financial statements for the interim period 1 January - 30 September 2024 should be evaluated together with the annual consolidated financial statements for the fiscal period 1 January-31 December 2023.

**2.5 Significant accounting estimates, assumptions and judgments**

The Group continued to predicate the assumptions explained in the notes of the consolidated financial statement dated 31 December 2023 on the assumptions taken as basis for the fiscal period ending on 30 September 2024.

**2.6 Effects of seasonality on operations**

Operations of the companies within the scope of consolidation may increase or decrease by period. Accordingly the results of the period ending on 30 September 2024 may not serve as an indicator for the yearround.

**2.7 Significant changes in the current period**

Group prepared its consolidated financial statements as at and for the period ended 30 September 2024, by applying TAS 29 "Financial Reporting in Hyperinflationary Economies" in accordance with the announcement made by Public Oversight Accounting and Auditing Standards Authority ("POA") on 23 November 2023, and the "Implementation Guide on Financial Reporting in Hyperinflationary Economies". The standard requires that financial statements prepared in the currency of a hyperinflationary economy be stated in terms of the purchasing power of that currency at the balance sheet date and that comparative figures for prior period financial statements be expressed in terms of the measuring unit current at the end of the reporting period. Therefore, the Company has presented its consolidated financial statements as of 31 December 2023, and 30 September 2023, on the purchasing power basis as of 30 September 2024.

In accordance with the CMB's decision dated 28 December 2023, and numbered 81/1820, issuers and capital market institutions subject to financial reporting regulations applying Turkish Accounting/Financial Reporting Standards are required to apply inflation accounting by applying the provisions of TAS 29 to their annual financial statements for the accounting periods ending on 31 December 2023.

The restatements in accordance with TAS 29 have been made using the adjustment factor derived from the Consumer Price Index ("CPI") in Turkey published by the Turkish Statistical Institute. As of 30 September 2024 the indexes and adjustment factors used in the restatement of the consolidated financial statements are as follows:

<b>Dates</b>	<b>Index</b>	<b>Adjustment Coefficient</b>	<b>Three-year Compound Inflation</b>
30 September 2024	2,526.16	1,00000	%343
31 December 2023	1,859.38	1,35860	%268
30 September 2023	1,691.04	1,49385	%254

**NOTE 2 - BASIS OF PRESENTATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**2.7 Significant changes in the current period (Continued)**

The main components of Group's restatement for the purpose of financial reporting in hyperinflationary economies are as follows:

- The consolidated financial statements for the current period presented in TL are expressed in terms of the purchasing power at the balance sheet date and the amounts for the previous reporting periods are restated in accordance with the purchasing power at the end of the reporting period.
- Monetary assets and liabilities are not restated as they are currently expressed in terms of the purchasing power at the balance sheet date. Where the inflation-adjusted amounts of non-monetary items exceed the recoverable amount or net realizable value, the provisions of TAS 36 and TAS 2 have been applied, respectively.
- Non-monetary assets, liabilities and equity items that are not expressed in the current purchasing power at the balance sheet date are restated by applying the relevant conversion factors.
- All items in the statement of comprehensive income, except for the effects of non-monetary items in the balance sheet on the statement of comprehensive income, have been restated by applying the multipliers calculated over the periods in which the income and expense accounts were initially recognized in the financial statements.
- The effect of inflation on the Group's net monetary asset position in the current period is recognized in the condensed consolidated financial statement of profit or loss and other comprehensive income in the net monetary position loss account. For the period 1 January - 30 September 2024, the effect of inflation on the Group's net monetary asset/liability position amounting to TL 303,619,873 has been recognized as net monetary position gains in the consolidated statement of profit or loss and other comprehensive income (1 January - 30 September 2023: net monetary position gains amounting to TL 404,000,431).

**2.8 Amendments in Turkish Financial Reporting Standards**

**a. Standards, amendments, and interpretations applicable as of 30 September 2024:**

- **Amendment to IAS 1 – Non-current liabilities with covenants;** effective from annual periods beginning on or after 1 January 2024. These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.
- **Amendment to IFRS 16 – Leases on sale and leaseback;** effective from annual periods beginning on or after 1 January 2024. These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

**2.8 Amendments in Turkish Financial Reporting Standards (Continued)**

- **Amendments to IAS 7 and IFRS 7 on Supplier finance arrangements;** effective from annual periods beginning on or after 1 January 2024. These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company’s liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB’s response to investors’ concerns that some companies’ supplier finance arrangements are not sufficiently visible, hindering investors’ analysis.
- **IFRS S1, ‘General requirements for disclosure of sustainability-related financial information;** effective from annual periods beginning on or after 1 January 2024. This standard includes the core framework for the disclosure of material information about sustainability-related risks and opportunities across an entity’s value chain.
- **IFRS S2, ‘Climate-related disclosures’;** effective from annual periods beginning on or after 1 January 2024. This is the first thematic standard issued that sets out requirements for entities to disclose information about climate-related risks and opportunities.

The above standards and interpretations do not have a significant impact on the Group’s consolidated financial statements.

*b. Standards, amendments, and interpretations that are issued but not effective as of 30 September 2024:*

- **Amendments to IAS 21 - Lack of Exchangeability;** effective from annual periods beginning on or after 1 January 2025. An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.
- **Amendment to IFRS 9 and IFRS 7 - Classification and Measurement of Financial Instruments;** effective from annual reporting periods beginning on or after 1 January 2026 (early adoption is available). These amendments:
  - clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
  - clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
  - add new disclosures for certain instruments with contractual terms that can change cash flows (such as some instruments with features linked to the achievement of environment, social and governance (ESG) targets); and
  - make updates to the disclosures for equity instruments designated at Fair Value through Other Comprehensive Income (FVOCI).

**NOTE 2 - BASIS OF PRESENTATION OF CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**2.8 Amendments in Turkish Financial Reporting Standards (Continued)**

- **IFRS 18 Presentation and Disclosure in Financial Statements;** effective from annual periods beginning on or after 1 January 2027. This is the new standard on presentation and disclosure in financial statements, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to:
  - the structure of the statement of profit or loss;
  - required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity’s financial statements (that is, management-defined performance measures); and
  - enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.
- **IFRS 19 Subsidiaries without Public Accountability: Disclosures;** effective from annual periods beginning on or after 1 January 2027. Earlier application is permitted. This new standard works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements and instead applies the reduced disclosure requirements in IFRS 19. IFRS 19’s reduced disclosure requirements balance the information needs of the users of eligible subsidiaries’ financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries. A subsidiary is eligible if:
  - it does not have public accountability; and
  - it has an ultimate or intermediate parent that produces consolidated financial statements available for public use that comply with IFRS Accounting Standards.

The above amendments and new standards will be applied by the Group management as of their effective dates. The effects of these amendments and new standards are expected be not material for the Group’s consolidated financial statements.

**NOTE 25 - FINANCIAL INSTRUMENTS (FAIR VALUE DISCLOSURES AND  
EXPLANATIONS IN THE FRAMEWORK OF HEDGE ACCOUNTING)**

**Classification of financial instruments**

The Group has classified its financial assets and liabilities as financial investments, loans and receivables. The Group's financial assets are classified as cash and cash equivalents, trade receivables and other receivables, loans and derivative instruments and are presented at amortized cost using the effective interest method. The Group's financial liabilities consist of financial liabilities, trade payables, derivative instruments payables and other payables and are classified as financial liabilities carried at discounted cost and presented at amortized cost using the effective interest method.

Fair value is the amount at which a financial instrument could be exchanged in a current transaction between voluntary parties, other than in a forced sale or liquidation, and is best determined by an established market price, if any.

The estimated fair values of financial instruments have been determined by the Company using available market information and appropriate valuation methods. However, judgment is used in interpreting market data for the purpose of estimating fair value. Accordingly, the estimates presented here may not be indicative of the values that the Group could realize in a current market transaction.

The following methods and assumptions have been used in estimating the fair values of financial instruments whose fair value can be determined:

**Financial assets**

The fair values of the balances denominated in foreign currency translated at period-end rates are considered to approximate their book values. Cash and cash equivalents are presented at their fair values. It is assumed that the fair values of trade receivables and receivables from related parties approximate their book values due to their short-term nature. Derivative instruments are shown at their fair values.

**Financial liabilities**

Trade payables, payables to related parties and other monetary liabilities are estimated to be approximated to their fair values together with their discounted book values, and it is accepted that the fair values of the foreign currency balances translated with year-end rates approximate their book values. Liabilities from derivative instruments are shown at their fair values.

The table below contains the analysis of financial instruments whose fair value is determined by valuation method. Fair value calculations are based on the stages described below:

- Quoted prices (unadjusted) in active markets for certain assets and liabilities (Level 1).
- Observable inputs, either directly (as prices) or indirectly (derived from prices), for assets or liabilities other than quoted prices within Level 1 (Level 2).
- Inputs (unobservable inputs) for assets and liabilities that cannot be determined on the basis of observable market data (Level 3).
