PROFIT DISTRIBUTION POLICY

Our Company's dividend distribution policy is to distribute a minimum dividend of 5% of the distributable profit in accordance with the relevant legal regulations to all shares representing the capital, without prejudice to the rights arising from the dividend privilege in periods when the minimum dividend distribution rate is not determined or abolished. (Other regulations regarding the distribution of profit in the Company's articles of association and other legal regulations are reserved).

However, this policy will be reviewed every year in accordance with the developments in domestic and foreign economic conditions and the investment opportunities and financing possibilities of our company. Unless otherwise decided at the General Assembly, the Company will continue to distribute a minimum dividend of 5% of the distributable profit in accordance with the relevant legal regulations, taking into consideration a balance between the possible expectations of our shareholders and our growth strategies. In this framework, the dividend distribution proposal to be made from the profit for the period will be included as a separate section in the annual report and will be submitted for the information of shareholders and the public before the General Assembly.

Principles Regarding Calculation, Payment and Distribution of Dividends

The Company's Articles of Association, the Company's Dividend Distribution Policy, Capital Markets Legislation, the Turkish Commercial Code and the dividend distribution principles and regulations of the Capital Markets Board are complied with in the calculation of the dividend to be made from the Company's profit for the period. Accordingly

- a) As of the dividend distribution date, dividends are distributed equally to all existing shares in proportion to their shares, regardless of the issue and acquisition dates of the shares. (The rights regarding the dividend privilege of Class A shares specified in the Company's articles of association are reserved).
- b) It is the policy of the Company to pay dividends in cash in one instalment, provided that it is resolved at the General Assembly meeting at which dividend distribution is decided. However, it may be decided by the General Assembly upon the proposal of the Board of Directors to pay dividends in instalments or to distribute dividends in the form of bonus shares, provided that the dividend distribution principles and capital increase principles of the Capital Markets Legislation, the Turkish Commercial Code and the Capital Markets Board are complied with.
- c) Dividends are calculated in accordance with Article 25 of the Company's Articles of Association and distributed at the latest as of the end of the accounting period in which the General Assembly meeting at which the distribution decision is made is held.

Article 25 of the Company's articles of association is as follows

Article: 25- The amount remaining after deducting all kinds of expenses paid or accrued, depreciations, premiums and bonuses paid, provisions to be set aside, taxes and similar financial obligations and losses of previous years, if any, from the revenues generated by the Company from its activities in a balance sheet period shall constitute its net profit.

- a) *A legal reserve fund of 5 per cent is set aside until it reaches 1/5 of the Paid-in Capital.*

- b) *First dividend is allocated and distributed from the remaining portion at the amount and rate determined by the Capital Markets Board.*
- c) *After the 5% legal reserves and the first dividend mentioned in the above paragraphs have been set aside and paid in cash, 10 per cent of the paid-in capital is deducted from the amount taken as the basis for the calculation of the first dividend;*
 - i) *5 per cent to be distributed to Group (A) bearer shares,*
 - ii) *Of the remaining portion, an amount to be determined by the General Assembly is set aside to be paid to the members of the Board of Directors, excluding the independent members.*

The profit remaining after the distribution made in accordance with the above paragraphs may be distributed in whole or in part, or may be set aside as extraordinary reserves, or may be carried forward to future years, upon the proposal of the Board of Directors of the Company, by the decision of the General Assembly.

The provision of subparagraph (c) of paragraph 2 of Article 519 of the Turkish Commercial Code is reserved.

Unless the reserves required to be set aside by law and the first dividend determined for the shareholders in the Articles of Association are set aside, no decision can be made to set aside other reserves, to transfer profits to the following year and to distribute dividends to the members of the Board of Directors, officers, employees and workers, holders of usufruct / founding usufruct certificates, holders of preferred shares, foundations established for various purposes and persons / institutions of similar nature unless the first dividend is paid.

- d) *The Principles Regarding the Dividend Advance Distribution Application are shown below.*

Corporations wishing to distribute advance dividends in accordance with the capital markets legislation must have a provision in their articles of association and the board of directors must be authorised to distribute advance dividends limited to the relevant accounting period by a resolution of the general assembly.

There is no provision in the Company's current Articles of Association regarding the distribution of advance dividends. Therefore, our Company has not adopted a policy of distributing advance dividends. In the event that an amendment is made to the Company's articles of association in the future regarding the distribution of advance dividends, advance dividend distribution may be made provided that the dividend distribution principles of the Turkish Commercial Code and Capital Markets Legislation are complied with.

- e) *The base of distributable profit is determined within the framework of the Company's Articles of Association, Capital Markets Legislation and Turkish Commercial Code regulations. Within the framework of the relevant regulations, donations are added to the distributable profit base.*
