e) Board Members and Committees

Operating Principles of the Board of Directors

Board members and their terms are determined during General Assembly meetings, The Board of Directors operate transparently, accountably, fairly, and responsibly. It is essential that the Board of Directors convene as often as necessary to efficiently perform their duties.

At the General Assembly held on December 29, 2023, six members including independents, were appointed to the Board of Directors for a three-year term. There was no loss of independence at the reporting dates between 01.01.2025-30.09.2025. The Board of Directors held 4 meetings during the same period.

The format of meetings, resolutions, meeting requirements, voting process, and the duties and responsibilities of the Board of Directors are governed by the pertinent provisions outlined in the Articles of Association (AoA), the TCC, and CMB regulations.

Early Detection of Risk Committee

Committee Member	Committee Duty	Title of Member
Halil Doğan BOLAK	Chairman	Independent Board Member
Erhan CANSU	Member	Board Member
M. Furkan ÜNAL	Member	Board Member

Corporate Governance Committee

The Corporate Governance Committee is instituted to evaluate the implementation of corporate governance principles within the Company. In cases where adherence is lacking, it investigates the underlying reasons for non-compliance and identifies potential conflicts of interest. It also provides recommendations to the Board of Directors to enhance corporate governance practices and oversee the activities of the Investor Relations Department.

Due to the structure of the Company's Board of Directors, separate Nomination and Remuneration Committees have not been established. Therefore, the Corporate Governance Committee will also assume the responsibilities of the Nomination and Remuneration Committees in accordance with the Corporate Governance Principles.

The Corporate Governance Committee meets at least four times quarterly and the meeting results are reported to the Board of Directors. The Committee's decisions serve as advisory recommendations to the Board of Directors, which retains the ultimate authority in making decisions on relevant matters.

Early Detection of Risk Committee

The Early Detection of Risk Committee is formed to proactively identify any risks that could jeopardize the Company's stability, growth, and advancement. Its mandate includes implementing necessary precautions and effectively managing the risks once identified. The Committee meets at least four times quarterly and the meeting results are reported to the Board of Directors. The Committee's decisions serve as advisory recommendations to the Board of Directors, which retains the ultimate authority in making decisions on relevant matters. The Committee updates the Board of Directors on all developments falling under its authority and responsibility.

Audit Committee

The Audit Committee oversees the Company's accounting system, the disclosure of financial information to the public and their independent audits. Additionally, it supervises the proper functioning and effectiveness of the Company's internal audit and control systems.

- The first dividend payment was made to the shareholders after the IPO.
- The share buyback program started as of October 2024.
- We became a signatory to the United Nations Women's Empowerment Principles (UN WEP's).

General Overview and Operating Sector

The company, with its facility located in Susuz Belediyesi in Afyonkarahisar, ranks among Turkey's highest capacity factories in its field, boasting an annual production capacity of 90,000 tonnes of frozen potatoes and 10,000 tonnes of frozen coated onion rings and cheese sticks. The facility covers 75,000 m² of indoor space and spans a total area of 168,000 m². As a result of its investment in innovative agricultural technologies and its state-of-the-art production line, the company contributes to the Turkish economy as one of the leading high-capacity factories both in its region and nationwide, providing employment to numerous producers integrated into the system and many other individuals.

Atakey Patates operates in the frozen food sector. The company's product portfolio includes various types of frozen potatoes, both coated and uncoated, such as French fries, apple slices, crinkle-cut, lattice fries, and red-coated crinkle fries, as well as frozen coated onion rings and coated cheese sticks.

Atakey Patates has imported high-quality seeds from abroad and started multiplying them for commercial potato production. Since 2015, the company has been conducting its own seed cultivation activities on land leased from TİGEM in Turkey and has established this system. It has a specialized team of agricultural engineers managing the seed planting process, employing the most advanced methods to produce high-quality seeds. None of the seeds or potatoes contain genetically modified organisms (GMOs), and they are subjected to critical testing and analyses during the growing season and harvest. Harvesting is carried out across approximately 40,000 decares of agricultural land with 101 farmers in 20 different cities. To ensure consistency and quality at the source of potato products, the company supplies seeds and fertilizers to its contracted farmers.

In addition to its main activity of commercial seed production, AtaKey Patates also undertakes the procurement of raw materials and auxiliary supplies, seed selection, agricultural production, manufacturing, export, import, wholesale and retail sales, marketing, and distribution of its products.

The facility in Susuz Belediyesi includes storage areas such as a 7,500 m² Seed Warehouse, a 30,000 m² Raw Material Warehouse, and a 15,000 m² Cold Storage Warehouse. These consist of rooms equipped with storage systems, each having a capacity of 3,500 tons. Temperature and humidity are controlled by a state-of-the-art central computer system through entry and exit vents for cooling air.

As a significant player in the frozen potato production sector in terms of production and sales volume, the company contributes to the growth of the sector and Turkey's agricultural economy through its growth potential, diversification of sales channels, export opportunities, and new investment possibilities with its value-added product portfolio.

The sources of finance and, if any, the quality and amount of issued capital market instruments:

In addition to revenue generated from operations, the Company benefits from external sources of financing, including export loans and investment loans.

3- FINANCIAL RIGHTS GRANTED TO MEMBERS OF THE GOVERNING BODY AND SENIOR MANAGERS

Information on the total amounts of financial benefits including attendance fees, wages, premiums, bonuses, and profit shares, and compensations, travel, accommodation, and representation expenses, in-kind and cash amenities, insurance, and similar benefits:

The total of financial and similar benefits granted to senior managers during the period that ended September 30, 2025, is 12,812,046 TL. (September 30, 2024: 10,276,592 TL)

4- RESEARCH AND DEVELOPMENT EXPENSES OF THE COMPANY

The Company has focused on product development activities as part of its strategy. Therefore, the Company conducts research and projects for new product development, as well as diversification, improvement, and enhancement of existing products. The Company draws on from its sector experience and global trends in developing new product ideas.

5- COMPANY ACTIVITIES AND RELATED KEY DEVELOPMENTS

a) Information on investments during the relevant accounting period:

**Table of Investment
(TL)**

30 September 2025

<u>Investment Type</u>	
Ongoing Investments	93,027,630
Property, Plant and Equipment	66,183,756
Vehicles	9,027,846
Buildings	4,268,126
Intangible Assets	858,745
Fixtures	741,126
Land improvements	204,533
Total	174,311,762

In addition, our company has initiated efforts to implement a cogeneration project that will contribute to operational continuity and increase operational efficiency. Through this project, which will generate electricity from natural gas, the company aims not only to produce its own electricity but also to reduce the frequency of interruptions caused by power outages and equipment damage, significantly decrease material waste in the process, and thereby achieve an increase in efficiency.

b) Information on the company's internal control system and internal audit activities, and the governing body's opinion on the matter:

The Internal Control System, developed within the scope of the Corporate Risk Management Policy, ensures that the company's activities are conducted regularly and efficiently in compliance with company policies. It also contributes to the protection of assets, detection and prevention of errors and fraud, completeness and accuracy of accounting records, timely preparation of reliable financial information, and achievement of targets. The company establishes internal control mechanisms for critical processes and periodically tests these mechanisms within the framework of group internal control and audit plans, implementing corrective measures when necessary.

Atakey Patates strives to maintain transparency in its financial processes as in all other areas. Within this scope, the company's Audit Committee holds primary authority. The Audit Committee meets four times a year during the fiscal year as part of internal audit activities. The results of all meetings are documented and reported to the Board of Directors.

The Internal Audit Unit, responsible for regularly evaluating the company's Internal Control System, is tasked with continuously monitoring the system's effectiveness and contributing to its improvement. All internal audit activities carried out throughout the year and their results are periodically presented by the unit to the Audit Committee.

c) Information on direct and indirect affiliates and share ratios:

There is none.

d) Statements on the private and public audits in the related accounting period:

The company was not subject to special audit or public audit within the period 01.01.2025 – 30.09.2025.

e) Details regarding legal proceedings initiated against the company that could impact on its financial standing and operations, including potential outcomes:

As of September 30, 2025, there is a litigation provision amounting to 2,589,694 TL.

f) Information regarding related party transactions:

The Company engages in various transactions with related parties within the course of its ordinary business operations. As a result of operational activities, receivables and payables from related parties generally arise from ordinary commercial activities. Related party transactions are explained in detail in footnote 27 of the Interim Financial Statements dated 30.09.2025, and no provision for doubtful receivables has been allocated in the current year for receivables from related parties.

g) Explanations of administrative or judicial sanctions imposed on the Company and members of the governing body for non-compliance with legislative provisions:

There are none.

h) Information and evaluations regarding whether the past period's targets were achieved, whether the resolutions of the general assembly were implemented, reasons for any unmet objectives or unimplemented resolutions, and evaluations:

Targets for the period ending September 30, 2025, have been achieved.

i) Details regarding any extraordinary general assembly meetings held during the year, including the dates of the meetings and the resolutions adopted along with subsequent actions taken:

No extraordinary general assembly meeting was held in 2025.

j) Information on donations and grants, as well as expenditures related to corporate social responsibility projects within the related accounting period:

A donation of 4,062,630 TL was made during the reporting period between 01.01.2025 and 30.09.2025.

k) If it is a subsidiary; any legal transactions executed with the controlling company or with a subsidiary of the controlling company, for the benefit of the controlling company or any of its subsidiary companies as prompted by the controlling company and all other measures taken or otherwise avoided in the previous year of activity for the benefit of the controlling company or any of its subsidiary companies:

There is none.

l) If it is a subsidiary: according to the situations and conditions known at the moment when the legal transactions aforementioned in article (j) are carried out or measures are taken or avoided to be taken, whether an appropriate counter-action was taken in any of the legal transactions and

whether the measure taken or avoided to be taken caused a loss for the company, and if the company has incurred a loss, whether this loss was offset:

There is none.

6- FINANCIAL STATUS

a) Information and projections on the company regarding its sales performance, productivity, revenue generation capacity, profitability, and debt-to-equity ratio as well as the operating results in the current period in comparison to the previous periods: (IFRS)

*Operational profit is the profit generated from core business operations and investments, before accounting for financial expenses.

b) Factual observations and the government body's assessment concerning whether the company's capital has become inadequate, or the company has been heavily indebted:

The capital is 100 percent maintained within the equity.

c) Information on the profit distribution policy and, if no profit distribution is to be made, a proposal on how the undistributed profit will be utilized:

The distributable net profit will be calculated in accordance with the AoA, the TCC, the CMB regulations, the Dividend Distribution Communiqué, and tax regulations. It is aimed at being

distributed to shareholders and other eligible individuals participating in the profit, in the proportion determined by the Board of Directors for each period and presented to the general assembly.

According to the financial statements prepared in accordance with CMB accounting standards, the net profit for the fiscal year 2024 was realized as TL 182,951,797. The proposal made by the Board of Directors to distribute a total gross amount of TL 76,322,400 to the shareholders as of June 25, 2025, after deducting the legal obligations, all of which will be covered from the net profit for the year 2024, and to leave the remaining portion of the net profit for the year 2024 within our Company as extraordinary reserves was approved at the General Assembly Meeting dated on April 18, 2025.

7- RISKS AND EVALUATION OF GOVERNING BODY:

a) Information on the corporate risk management policy, if one exists, against anticipated risks:

The Company, within the framework of TFI Group Companies' Corporate Risk Management methodology, conducts activities including identification and description of risks; evaluation of control effectiveness and adequacy of designs; ensuring management of risks through identification of process owners and action plans; and efforts to reduce risks to acceptable levels or within the risk appetite accepted by management. The risk management strategy entails the oversight and accountability of risk management at the Executive Board and Board of Directors ("Board of Directors" or "BoD") levels. Management is responsible for making prudent risk/reward decisions and for actively identifying, assessing, rating, managing, and monitoring ongoing risks.

b) Information on the employees and reports of the Risk Committee, if any:

The Risk Committee was established on January 24, 2024. The Executive Committee is responsible for effective management of enterprise risks through implementation of a risk management framework, policies, and processes, including compliance with established risk limits and invited to all Risk Committees, The Group Risk Director directly reports to Early Detection of Risk Committee and presents top tier risks on an enterprise-wide basis to the Committee six times per year or as circumstances require.

c) Forward-looking risks related to sales, efficiency, innovation capacity, profitability, debt-to-equity ratio, and similar matters:

The Company's primary risks are monitored across five categories. These encompass strategic, operational, compliance, financial (FX, liquidity, loan, interest, and commodity price risks), and technological risks.

Agricultural risks, production disruptions, and natural disasters could impede short-, medium-, and long-term strategies, The Company designs and effectively implements identification and preventive measures to eliminate such risks, Insurable risks are frequently assessed and transferred to third parties, While the Board of Directors, through strategic decisions, manages and represents the Company by keeping the risk, growth and income balance of the Company at the most appropriate level with a rational and cautious risk management approach, primarily considering the Company's long-term interests, it is also responsible for ensuring that the Company achieves its determined and publicly disclosed operational and financial performance targets.

The financial risks encompass loan, interest, liquidity, and counterparty risks, plus closely monitoring national and international economic developments, the Company considers the potential impact of developments on assets and liabilities and takes due precautions.
